

object

```
graph BT; A["bot_common_ros.ur_control.  
WeightReward"] --> B["object"]
```

A diagram illustrating a dependency. A light gray rectangular box at the top contains the text "object". A dark blue arrow points vertically upwards from the bottom center of a larger, darker gray rectangular box below it to the bottom center of the "object" box. The bottom box contains the text "bot\_common\_ros.ur\_control.WeightReward".

bot\_common\_ros.ur\_control.  
WeightReward
