

planning_interface
::PlannerManager

```
classDiagram
    class OMPLPlannerManager["ompl_interface::OMPLPlannerManager"]
    class PlannerManager["planning_interface::PlannerManager"]
    OMPLPlannerManager --|> PlannerManager
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box representing the base class, 'ompl_interface::OMPLPlannerManager'. A blue arrow points upwards from this box to a white box at the top representing the derived class, 'planning_interface::PlannerManager'. This indicates that 'ompl_interface::OMPLPlannerManager' inherits from 'planning_interface::PlannerManager'.
